

Collection Resources

Boxes (19"L x 15.25"W x 9"H)

- Boxes filled with all Canned Goods weigh approximately 45 pounds
- Boxes filled with Mixed Canned and Dry Goods weigh approximately 32 pounds
- Boxes filled with all Dry Goods weigh approximately 18 pounds

Food Drive Bags (12"L x 6"W x 14"H)

- Bags are a great tool and a tangible reminder to encourage people to participate in the food drive
- We suggest that you order enough bags for approximately half of your building population
- Each bag holds approximately 10 pounds of food

Barrels (35"H x 22.25" Diameter)

- Each barrel holds approximately 150 pounds of food
- Approximately 10-15 full bags will fit in each barrel
- When your barrel gets full we suggest emptying the food into boxes for storage until pickup
- One S-hook will be provided with every barrel if you also order bags

Totes/Pallet Sized Boxes (48"L x 40"W x 38"H)

Please note that due to limited resources, the pallet-sized boxes will only be available for buildings that collected more than 1,000 pounds of food last year or have a building population greater than 3,000.

- The pallet-sized boxes are a great option for additional storage – please make sure they can be kept in a secure location and out of sight of the public
- A pallet-sized box will hold approximately 5 to 6 barrels of food
- Pallet-sized boxes must be moved with a pallet jack through double doors once full
